If your child has begun immunizations but has not yet received all the required immunizations, he or she may be able to attend school on a provisional or conditional basis. To qualify for provisional enrollment, your child must have received at least one dose of each of the required immunizations. If your child falls into this category, you must submit an Iowa Department of Public Health Provisional Certificate of Enrollment to the school. This "certificate" will expire in 60 days, so you must have your child completely immunized during this time or he or she will not be permitted to attend school until the

immunizations have been received. When your child has received all the required immunizations, you must submit a completed Certificate of Immunization to the school.
