

Linn-Mar Athletic Enhancement Program

Students entering grades 9-12 in 2020-21

LMHS hires in professionals from Performance Therapies to manage our strength program. We work to offer multiple opportunities for kids in the summer, and before and after school opportunities during the school year.

When students are “out-of-season” we want them to lift 3 times a week. When students are “in-season” their teams will have 2 times a week for them to lift. The Performance Therapies group manages all of these weight programs and daily sessions for us.

We are asking that each student pay \$50 for year long strength training sessions at the high school. After using this company for 3 years we have seen great athletic growth in kids who have committed to this program! The fee we charge to students is our estimate of the cost we will incur for managing the strength program. Any additional funds remain with the strength training program for maintaining/upgrading equipment.

Your fee covers all summer strength opportunities and, during the 2020-2021 school year, this payment will cover out-of-season strength sessions (before and after school), as well as in-season strength sessions with your team.

***** If you are entering 9-12th grade and have signed up to attend summer football camp with Linn-Mar you do not need to make a separate payment to the LMHS Strength program as Coach James will be paying your \$50 out of the fee you pay for summer camp**

Our summer strength opportunities will begin on July 1st and go through August 7th. We will lift Monday, Tuesday and Thursdays using the time schedule below. We do want students to try to attend three workouts every week but this is not a requirement.

Due to COVID 19 we must limit our weight room capacity to under 50. Therefore we will ask that you only come to the session listed below with your team name - we may need to do some shuffling as we get going in order to keep within the guideline the Local Health Department gives us - your flexibility is appreciated this summer.

It is important to note that during our strength training program kids are required to use our workout programs. We do not allow kids to come in and do their "own" workout. This is not an "open" weight room session and we do not offer "open" weight room opportunities for students through our athletic enhancement program.
